DETAILED ACTION

The examiner acknowledges the applicant's submission that Yamamoto et al. 2004/0085882 was at the time the claimed invention was made, owned by the same person or subject to an obligation of assignment to the same person. Prior art rejections which depend on the teachings of Yamamoto et al. are hereby withdrawn.

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Melvin Krauss on November 13, 2007.

Withdrawn claims 9-10 are cancelled.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: As indicated in the first office action on the merits mailed on 01/09/2007 the applicant recites a spacer layer which is made of an amorphous rather than a polymeric material and is thinner than those found in the prior art. Claims 8 and 19 were allowed indicated as allowable after applicant rewrote the claims in independent form to include all of the limitations of the base claim and any intervening claims. In the amended claims

received on 10/26/2007, the applicant has put the limitation that the intermediate layer be formed to a thickness of 0.3 μm to 3 μm into independent claims 1 and 11 as well. This amendment renders the independent claims 1 and 11 and all claims which depend from them allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
